“ So very sorry to just learn of this now. Henry was a great colleague and even better friend. Some of my fondest memories were formed on trips that we made together. My most sincere condolences to Andy and Bernie.

“ So saddened to hear about Henry. We met in 1974 when we were both hired as technicians in the Pfizer Plastics Lab in Easton. We quickly bonded and developed a reputation as being high energy and a bit crazy, sometimes working into the wee hours of the morning on Monday through Wednesday, then taking off the rest of the week. I learned a lot from Henry. We built a new lab, painted in orange, that someone said “looked like a French Bordello”. Travelled a lot, had a lot of fun. Painted cars on the side. With changing job responsibilities, we slowly lost track of each other, but I will never forget. I will miss my good friend. The world is a bit sadder with his passing.

“ *Andy and Mrs Wiebking, I was sorry to hear of Mr. Wiebking's passing. He was a great man. I think of him many times when I see the VW emblem he gave me from one of his Beetles. My condolences.*
